Most infant seats in the shopping trolleys at the mall are extremely dirty and full of germs. **Go Go Beans Disposable Infant Seat Cover** - is a disposable seat cover that you place over the infant seat of the trolley to keep your baby safe from the dirt and the germs.

Features:

The first bio-degradable reusable (limited), disposable infant seat cover in South Africa. Developed for use on shopping trolleys to prevent spreading of germs and keep your child safe. Washable at least twice before disposing of & can be used as a clean shield when feeding baby's first meals in most infant carriers.

RSP = R 50.00 per unit

Easy Sleepers® is a set of pillows, simply designed & incorporates soft, breathable fabrics ensuring comfort & temperature regulation. So your child is not only comfortable but it holds the head a healthy, upright position. Use of the pillow is not restricted and has been proven successful in snug 'n safe chairs, car & booster seats, prams and strollers. The aesthetical design works with the shoulders to ensure that the pillow stays in place & the ribbon joining the 2 pillows to that the pillow doesn't fall out. The 1st infant support pillows in RSA to obtain a full endorsement from the Chiropractic Ass. of SA (CASA). Suitable from birth up to 10 years, it acts as sound barrier when baby is sleeping and there is no need to inflate! Easy to install & remove, even when baby has fallen asleep. Manufactured from high quality imported double sided towelling, absorbing perspiration. One size fits all so no need to adjust as baby grows older. This quick, simple and versatile pillow it is stuffed with hypo-allergenic hollow-fibre, completely machine washable & tumble dryable. Also used by adults, disabled individuals and the frail.

RSP = R 70.00 per unit

The **Wonder Wedge Pregnancy Pillow** is a double-sided pregnancy pillow. Most of us are aware that it is vital during pregnancy to get enough sleep, but is often made difficult by your ever-expanding tummy! This product offers two padded ends to support your tummy, whichever side you sleep. It should also be noted that sleeping on your side allows the maximum amount of oxygen to the placenta and the pillow is manufactured from 100% cotton. The pillow can be machine washed, on a delicate / cold wash cycle, do not exceed 30°C.

Mom's Helpers cont.:

HeatSafe
Protective Seat Covers

Heatsafe Protective Seat Covers are available in white or cream with a coloured trim, made from a light fabric reflecting sunlight away from the seat, thus acting as a 'sunscreen' and keeping the seat much cooler than a normal uncovered car seat. Most car seats last a child until their 4th year, but the sun's harmful rays can reduce this lifespan considerably & replacement covers are costly. This seat cover is hand washable in cold water or can simply be wiped clean with a wet wipe and they are made from flexible opaque materials with good light blocking & insulating properties with trimming that extends along an edge of the body and is resilient & stretchable. So, the 2-phase protection offered by the cover, not only protects against sun damage to a seat but also thermally shields a seating surface of an infant seat against heat.

RSP = R 110.00 per unit

Trolley Saddle / Seat protects your child from harmful germs found on shopping trolleys. It covers the handlebars, seat & sides of the trolley and fits most shopping trolleys (metal and plastic). It is padded for comfort with own pillow case to fold up conveniently and includes a bottle or cup holder, toys can also be attached (not incl). Fully machine washable and made from durable fabrics, it comes in fun and bright colours. Ask yourself: **HOW DIRTY ARE SHOPPING TROLLEYS?** In fact they are dirtier than public toilets - fact! Although most people are aware of the importance of hand washing, less than 45% of people bother to wash them - (this is an international statistic!). The high bacteria count found on the average clean looking trolley is enough to make you sick, a survey revealed the average shopping trolley contains 1,000 times the bacteria count that a human would otherwise encounter in a normal day – baby seats have even worse statistics!

RSP = R 300.00 per unit

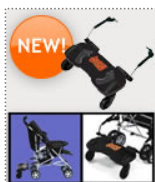

The Stroller Strap - Ever wish you had more hands? Have a toddler longing to be a 'Big Kid' in every way? Help to foster their independence while keeping them within reach. The 20" Stroller Strap has an easily adjustable padded wrist loop for comfort and can be attached to the stroller or for added convenience to the shopping cart or even a belt loop so your toddler can enjoy their 'Big Kid Freedom' while still being within reach.

RSP = R 80.00 per unit

Kid Keeper™ - Safety harness keeps parent & child close and comfortable while out in public. It reduces any fears a parent or child might have in being separated and is a patented harness, which is fully supported by the child's torso - not the sensitive lower stomach area. It has a double swivel snap design which can be used to secure the child to high chairs, grocery carts or other seats if required. It is adjustable to fit chest size 14" to 25.5" and the shoulder straps are padded for added comfort. The strap adjusts in length up to 42" is fully machine washable.

RSP = R 150.00 per unit

Introducing **KiddyBoard and BuggyBoard** – a quintessential item for mom out and about with baby and toddler! A quick & simple solution for parents with two young children, converting a single pushchair into transport for two! It attaches neatly to the back of a pram or stroller and hooks up neatly out of the way when no longer required with a quick release mechanism to remove them. Fun & comfortable, the boards flex easily over bumps due to the heavy duty swivel wheels & on board suspension offering a smooth ride. Suitable for ages 2 to 5 years and a maximum weight of 20kg.
